---

We appreciate your interest in writing business with Union General!

We are a general agency that prides itself on fair, fast and friendly service. Union General is pleased to offer a full line of commercial auto markets to handle local, intermediate and long haul trucking exposures. We are especially competitive on those risks that have been in business for at least three years and have drivers that are experienced.

In addition, we have excellent programs to handle public livery exposures. Our most popular line is the limousine class, but we can also handle sedans, airport shuttles, day care vans, church buses, and many more.

We currently are contracted with a select group of producers in the state of California and primarily do business with these agents. However, with the expansion of our staff, we are considering accepting appointments with new producers. We are looking for agents who currently write commercial transportation and already have a thorough understanding of the industry. We value highly the trust we have with our current producers and look forward to creating similar business relationships with new agents.

To arrange an appointment to further discuss opportunities with Union General, please complete the attached trucking questionnaire and submit to our offices.

We appreciate your interest in our programs and look forward to hearing from your agency!

Sincerely,

John F. Mundelius  
Transportation Manager
